

FOR FACILITATORS ON TRACK TRAINING

Developed by Little Athletics Victoria specifically for our youngest members, On Track is a skills-based program designed to introduce the U6-U8 age groups to the fundamental motor skills essential for athletics. A progressive skills program, On Track provides children with greater levels of activity, instruction, and enjoyment, while focusing on participation and effort.

Led by teacher and On Track aficionado, John McCall, this training program, will demonstrate skills, drills, and activities for the On Track program, including handy tips for implementing On Track at Centres.
